

## To Farmers Taking Part in the 1937 Agricultural Conservation Program

The enclosed check represents the second installment of the payment which you earned by cooperating in the 1937 Agricultural Conservation Program. This payment is the balance to which you are entitled after the rates of payment specified in the offer were increased 10 percent and your share of the County Agricultural Conservation Association administrative expenses was deducted.

The payment you are receiving is in compensation for your part in helping to preserve and build up the Nation's soil resources.

If you have any question regarding this payment or the conservation program, I suggest that you get in touch with the officers of your County Agricultural Conservation Association.

Hawallace  
Secretary of Agriculture.
